Experience

Aug 2024 - now

Freelancer/Full-stack AI developer @ SuitePad

- Text & Voice AI chatbot grounded in hotel-specific knowledge
- RAG pipelines, MCP servers
- Personalized recommendations
- AI Voice from different vendors
- Tech: AWS Bedrock, LangChain, LangSmith, LangGraph, Vercel AI SDK, RAG, MCP, LLM Evals, OpenAI Realtime API, Python, Ruby on Rails, LLM, pgvector
- *Also: Node.js, AWS Fargate, AWS Cloudwatch, AWS Lambda, AWS Elasticache, AWS Nova Sonic 2, OpenSearch, Google Vertex AI, AWS S3, AWS Cloudfront, Azure OpenAI, Docker, Redis, Terraform, Document AI, PostgreSQL, Sidekiq, WebSockets, GitHub Actions*

Sep 2025 - Dec 2025

Freelancer/Full-stack AI developer @ Alteos

- Enterprise AI solutions for insurance
- AI strategy consulting
- Agentic workflows
- Tech: Vercel AI SDK, RAG, LLM, MCP, Evals, LangChain, Mastra, Langfuse
- *Also: LangSmith, React, Supabase, TypeScript, Node.js, Docker, PostgreSQL, Next.js, Tailwind, Zod, OpenAI, Anthropic Claude, pgvector, Vercel, GitHub Actions, Vitest, Sentry, Datadog*

Aug 2025 - Dec 2025

CTO & Full-stack AI developer @ Dolittle-AI.de

- Built a GenAI platform (RAG, voice, and text chat)
- Multi-modal AI agents (voice + text)
- Smart ticket categorisation
- Custom Evals and Agentic workflows
- Tech: LLM, RAG, LangChain, Python, Node.js, Supabase, OpenAI Realtime API, AWS Nova Sonic 2, TypeScript, React, AWS

- Also: MCP, LangSmith, Evals, AWS Fargate, Docker, Terraform, PostgreSQL, OpenAI, Anthropic Claude, Deepseek, Gemini, Vertex AI, GCP, GitHub Actions

2025

CTO & Full-stack AI developer @ DocDolittle

- Built an AI voice phone receptionist for German doctors' practices
- Multi-modal AI agents (voice + text)
- AI-generated communication templates
- AI-categorization of incoming calls/tickets
- Tech: RAG, LLM, MCP, LangChain, VoIP, FreeSWITCH, Elevenlabs Voice, Supabase, Node.js, React, TypeScript, AWS, Pinecone
- Also: Evals, Docker, PostgreSQL, Twilio, SIP, Terraform, AWS Lambda, AWS RDS, AWS CloudWatch, AWS Bedrock, RabbitMQ, AWS SQS, OpenTelemetry, AWS Route 53, AWS Certificate Manager

2025

Freelancer/Full-stack AI developer @ Empion

- Built Enterprise AI content categorization and AI-powered web research
- Created a custom LLM evaluation framework
- Iterate LLM error rate based on annotated data
- Tech: LLM, Evals, OpenRouter, Python, Node.js, TypeScript, Javascript, React
- Also: PostgreSQL, FastAPI, Pydantic, OpenAI, Playwright, Docker, AWS

2025

Author @ Gen AI Workshops for developers

- Since Feb 2025, conducted 5 workshops for 100+ developers
- Hands-on training for dev teams to boost AI-assisted coding in organizations

Oct 2023 - now

Hands-on CTO & Full-stack AI developer @ Ukraine Refugee Support (NGO)

- Built a gen-AI RAG-enabled bot to help Ukrainian Refugees navigate German bureaucracy
- Grounded by web-search
- Image recognition and messenger integrations
- Internal backoffice with AI-tagging
- Tech: RAG, LLM, React, DynamoDB, Terraform, serverless, TypeScript, Javascript, Node.js, AWS, openAI platform
- Also: Tailwind, Vercel, Next.js, Supabase, AWS Lambda, AWS API Gateway, AWS S3, Telegram Bot API, OpenAI Vision, AWS DynamoDB, AWS Cloudfront

Sep 2020 – Sep 2023

Hands-on CTO & co-founder @ TimberBase, Berlin

- Developed a global timber trading platform

- Scaled an engineering team from scratch to 7 people
- Aligned tech team with the company vision and set up delivery processes according to ever-changing market requirements. Achieved predictable releases
- Mentored dev team members to perform and grow
- Established healthy engineering habits — agile, code review, clean architecture
- Tech: Python, Django, TypeScript, React, Redux, PostgreSQL, AWS, Terraform, Kotlin
- *Also: JavaScript, Java, NoCode/LowCode, CI/CD, Git, Docker, Redis, Celery, REST API, GitHub Actions*

Sep 2017 – Sep 2020

Hands-on CTO & co-founder @ Überblick, Berlin

- Überblick is an internal communication app for hotels
- Launched the startup from scratch — from 2 co-founders and a pitch deck to a 15-person company in 2.5 years
- Assembled an engineering team of 7 people
- Delivered full MVP (Web+iOS+Android) in 2 months (pre-AI era)
- Established product roadmap & agile processes
- Tech: React Native, Redux, Kotlin, PostgreSQL, AWS, Firebase
- *Also: JS/TS, Expo, Spring Boot, WebSockets, REST API, Git, Docker, Fastlane, Jest, Push Notifications, Gradle*

2014 – 2017

Software Architect @ Bonial, adTech, Berlin

- Started at Bonial as an iOS developer and grew into a software architect role, leading 3 teams: iOS, Android, and React Native
- Systems design and software architecture for a suite of company products
- Fostered clean architecture patterns and coding best practices (CI, DDD, code conventions)
- Interviewed developers
- Tech: Swift, React Native, Redux, AWS, iOS, Android
- *Also: Objective-C, Java, CI/CD, Fastlane, Jenkins, Git*

2011 – 2013

CTO & Founder @ asdCode Mobile Agency, Ukraine

- Led a team of 5 developers
- Project management, agile transformation, architecture, implementation & delivery
- Tech: iOS, Objective-C, UIKit, Git
- *Also: Core Data, REST API, Xcode, Android, Java*

2010 - 2013

CTO & co-founder @ iStat24 Call-Tracking, Ukraine

- Managed a team of 4 developers
- Lean startup, customer development, introduced Scrum

- ~20 presentations at industry conferences, with audiences of 20 to 400 people over two years
- Tech: Ruby, Perl, PostgreSQL, Redis, AWS
- *Also: Ruby on Rails, JIRA, Scrum, Sidekiq, Nginx, jQuery, JavaScript*

2006 – 2012

CTO & co-founder @ Vint.com.ua e-commerce store, Ukraine

- Singlehandedly built an e-commerce business from scratch
- Built e-commerce platform, back-office, and internal ERP
- Hired and managed a team of 10
- Defined internal processes for online marketing/sales/operations
- Developed iOS and Android apps
- Tech: Perl, MySQL, Apache, Objective-C, iOS
- *Also: JavaScript, jQuery, Android, Java, Linux, Memcached*

2005 - 2006

Full-stack Developer @ LND, Ukraine

Education

2000 - 2005

Kyiv Polytechnic Institute, Kyiv, Ukraine

- Computer Science MS degree
- Thesis: Optimized FTP search engine for midsize intranets (Perl + MySQL)

Languages

- English: Fluent
- German: B1
- Ukrainian: Native
